1. Introduction

Built Content Base (BCB) is a BEP20 token deployed on Binance Smart Chain (BSC). The mission is to provide a transparent and foundational economic layer for creators, builders, and community-driven projects. BCB pillars: - Built → growth & construction - Content → creativity & value - Base → foundational token layer

2. Vision & Mission

Vision: Become the economic base layer for content, creators, and communities in Web3.

Mission: Enable fair rewards, transparent staking, and accessible liquidity tools.

3. Problem Statement

Creators and builders lack transparent, incentive-aligned tools. Traditional platforms centralize rewards and restrict community growth.

4. Solution (Utility)

- Community Rewards
- Staking Programs
- Liquidity Foundation
- Token-Gated Tools & Events

5. Token Information

Name: Built Content Base

Symbol: BCB

Blockchain: BNB Smart Chain (BEP20)

Contract: 0xD8Df01f5529D63Ac08E154BfC7469fDeDa44cdF6

Total Supply: 100,000 BCB

Decimals: 18

6. Tokenomics
